

Activity 1: School Supplies Calculator

Input	Process	Output
❖ Number of Notebooks ❖ Number of Pens ❖ Payment	❖ Notebook cost = notebooks x ₱45 ❖ Pen cost = pens x ₱12 ❖ Total cost = notebook cost + pen cost ❖ Change = payment - total cost	❖ Total Cost ❖ Change

Smaller Task in Correct Order:

- Enter the number of notebooks
- Enter the number of pens
- Put the payment
- Calculate the notebook cost
- Calculate the pen cost
- Calculate the total cost of the notebook and pen
- Calculate the change
- Present the total cost and change

Pseudocode:

```
START

INPUT notebooks
INPUT pens
INPUT payment

notebookCost = notebooks × 45
penCost = pens × 12

totalCost = notebookCost + penCost

change = payment - totalCost

OUTPUT totalCost
OUTPUT change

END
```

Dry Run:

Test Case 1

(Notebooks = 3, Pens = 2, Payment = ₱200)

Step	Variable	Calculation	Result
1	Notebook cost	3 x ₱45	₱ 135
2	Pen cost	2 x ₱12	₱ 24
3	Total Cost	₱134 + ₱ 24	₱ 159
4	Change	₱200 - ₱159	₱ 41

Total Cost = ₱159

Change = ₱41

Test Case 2

(Notebooks = 2, Pens = 3, Payment = ₱150)

Step	Variable	Calculation	Result
1	Notebook cost	2 x ₱45	₱ 90
2	Pen cost	3 x ₱12	₱ 36
3	Total Cost	₱90 + ₱36	₱ 126
4	Change	₱150 - ₱126	₱ 24

Total Cost = ₱ 126

Change = ₱ 24
